Hypothesis Testing	1
Conclusions and Assumptions	1

Introduction

The report should be written in a brief, concise style, in a way that a non-data scientist manager can appreciate.

Exploratory Analysis

Include basic summaries of the three files. Word counts, line counts, and basic data tables Basic plots e.g. histograms to illustrate features of the data *Sources* Cite other sources here

Data Loading and Processing

Summary of the data

Hypothesis Testing

Result

Conclusions and Assumptions

Conclusions.

Assumptions.
